## MOEID

\*A highly motivated individual seeking to apply skills in requirement engineering and web development, gain practical industry experience, and contribute to impactful technology solutions while continuing to learn and grow as an IT professional.\*

moeidabdulhayee@gmail.com | GPA: 3.97

## SUMMARY

A highly motivated and detail-oriented individual eager to leverage skills in requirement engineering and web development to contribute to impactful technology solutions. Possessing a strong academic foundation and a passion for continuous learning, I am seeking an opportunity to gain practical industry experience and further develop my expertise as an IT professional. I am committed to collaborative teamwork, problem-solving, and delivering high-quality results.

## PROFESSIONAL EXPERIENCE

### Google

\*Senior Project Manager, December 2018 - September 2020\*

Responsible for the end-to-end design and development lifecycle.

Managed multiple projects simultaneously, ensuring on-time and within-budget delivery.

Collaborated with cross-functional teams, including designers, developers, and testers.

Oversaw web development and iOS development aspects of several key projects.

### NASA

\*Technical Lead & Developer, November 2020 - September 2025\*

Led and managed a team of engineers in the development and testing of hardware and software solutions.

Oversaw electrical engineering aspects of various projects.

Conducted rigorous hardware and software testing to ensure optimal performance and reliability.

Contributed to innovative solutions for complex engineering challenges.

## PROJECTS

### Perseverance Rover

\*Contribution to Martian Exploration Project\*

Played a supporting role in the creation of the Perseverance rover, a crucial project for studying the planet Mars.

Responsibilities included assisting in the development and testing of various components and systems.

Contributed to the rover's ability to collect and analyze Martian samples, furthering scientific understanding of the planet.

## SKILLS

- Requirement Gathering
- System Design
- Use Case Modeling
- SRS Documentation
- Communication
- Problem Solving
- Time Management
- Web Designing

## EDUCATION

- BSIT
- GPA: 3.97

## ADDITIONAL INFORMATION

- \*\*Languages:\*\* English (Native)
  - \*\*Certifications:\*\* \*To be added based on actual certifications\*
  - \*\*Awards:\*\* \*To be added based on actual awards\*
- 

(Page Break)

This CV highlights your dedication and skills in the IT field. To enhance this CV further, consider the following:

1. \*\*Quantifiable Achievements:\*\* Whenever possible, quantify your achievements in the Professional Experience and Projects sections. For example:

- Instead of "Managed multiple projects simultaneously," use "Managed 5+ projects simultaneously, resulting in a 15% increase in project completion rate."
- Instead of "Assisted in the development and testing of various components and systems" try "Assisted in the development and testing of the Rover's navigation system, which contributed to a 98% success rate in autonomous navigation during initial tests"

2. \*\*Skill Specific Examples:\*\* In the skills section or even sprinkled within the professional experience section you can provide further specific examples:

- Instead of "Requirement gathering" can be "Requirement Gathering (using Agile methodologies and incorporating user stories)"
- Instead of "Web Designing" can be "Web Designing (Proficient in HTML, CSS, JavaScript, and React)"

3. \*\*Expand on Education:\*\* If you have relevant coursework or projects during your BSIT, include them.

4. \*\*Tailor to Specific Job Applications:\*\* Remember to tailor your CV to each specific job application. Highlight the skills and experience that are most relevant to the specific role.

5. \*\*Certifications:\*\* Research and obtain relevant certifications to enhance your resume. Consider certifications in areas such as:

- Requirement Engineering (e.g., Certified Professional for Requirements Engineering - CPRE)

- Web Development (e.g., Microsoft Certified: Azure Developer Associate, AWS Certified Developer - Associate)
  - Project Management (e.g., PMP, CAPM)
6. \*\*Awards and Recognition:\*\* Any academic awards, scholarships, or recognition you've received can strengthen your application.
7. \*\*Consider including a portfolio link:\*\* If you have web design or development projects available online (GitHub, personal website, etc.), include a link in the contact information section. This allows recruiters to view your work directly.
8. \*\*Refine Summary Statement:\*\* Tailor the summary to the specific job you are applying for. The summary can mention how you are a good fit for the company culture or express eagerness to contribute in specific directions
